Millbury Power Choice Community Electricity Aggregation Program

<Date>

Dear Basic Service Customer,

The Town of Millbury approved a Community Electricity Aggregation program, Millbury Power Choice, authorizing our community to aggregate the electricity load (usage) of those residents and businesses that are on Basic Service with National Grid. The goals of the program are to provide you with competitive choice, longer-term price stability and reduced electric rates.

You will be automatically enrolled in the Millbury Community Electricity Aggregation program unless you choose not to participate.

After a competitive bid process, Public Power, LLC was selected as our Electricity Supplier with a contract term which started in July 2017 and continues through January 2020. A comparison of the rates for the aggregation program and the current rates for National Grid's Basic Service are shown below.

Rate Class	Town of Millbury Community Electricity Aggregation Program (Standard Product - No Action Required)	Current National Grid Utility Utility Basic Service
Residential	\$0.10430/kWh	\$0.13718/kWh
Small Commercial	\$0.10430/kWh	\$0.13166/kWh
Large Commercial	\$0.10430/kWh	\$0.12866/kWh WCMA*
Duration	September 2018 – January 2020 Rates apply to service beginning and ending on the days of the month that your meter is read in your service area.	November 1, 2018 – April 30, 2019 Residential and Small Commercial rates change every six months. *Large Commercial rates change every three months.

Rates indicated above are for Supply Services only. Under the contract with Public Power, LLC, the aggregation program rate per kWh for electric supply will be fixed at the above rates until January 2020.

While there is no guarantee of savings, the primary intent of the program is to provide a competitive choice, price stability and savings over the duration of the 30-month term. National Grid Residential and Small Commercial rates for electric supply change every six months and Large Commercial rates change every three months.

ADMINISTRATIVE ADDERS for all Millbury programs are included in above rates. This fee is \$0.001/kWh for the aggregation consultant.
